POST COVID-19

RETURN TO PLAY OPERATIONAL PLAN

Over and above the submitted protocol document, softball activities will start from provinces with club practices in preparation for Provincial selections.

We as a National Federation have appointed Dr Victor Lithlakanyane as our Covid-19 compliance officer.

Provinces will appoint or nominate a compliance officer with or without medical background whom all be workshopped by the National officer and report to him (Dr. V. Litlhakanyane).

NUMBERS AT THE FIELDS

At one park or grounds we might have several fields or diamonds as we call our fields in softball, field A, Field B, Field C and so on.

Taking a que on the current guide on funerals we shall curb our numbers to not more than 50 personnel per field including officials. NON-REGISTERED PEOPLE WILL NOT BE ALLOWED.

A team that has more players than the required number with one field shall be required to stagger their activities.

Softball tournaments do not attract high numbers of spectators, in most case softballers from other fields become spectators to the active fields which will not be allowed under the current situation.
